

T H R E A D S

The loop of trust and perfection

We don't sell thread by weight. We engineer loops that hold.

01 Continuity

Unbroken loop. continuous filament with peer logic, knotless promise. Line never breaks from cone to seam.

02 Trust

Proof before claim. Every lot shipped with tensile trace, elongation curve and heat data. No marketing, just measure.

03 Perfection

Measured grid. Tkt, tex, strength, elongation tenacity, all held within $\pm 3\%$ CV. Perfection is not feeling, it is tolerance.

VISION

To be the most trusted loop in every high-performance sewing product — where continuity meets precision.

MISSION

Engineered threads that hold strength, softness and stability in one unbroken loop, delivering measurable perfection for manufacturers who cannot afford failure.

ABOUT OP THREADS

OP Threads is a new-age Indian engineered thread startup founded in India, built on three words: Continuity, Trust, Perfection. Copper = craft, Graphite = engineering. Copper is the hand that guides; Graphite is the grid that measures. Cosmic Power = our product naming is celestial because every thread is a star that holds a universe together.

COPPER CRAFT

GRAPHITE ENGINEERING

Four families. Thirteen stars. One loop logic.

Each family shares a construction logic and finish philosophy.

All products measured on the same fine-to-solid character scale.

HT-S 04

High Tenacity Soft

Titan Pulsar Quasar

Unbonded strength. Fluid run.

BD-P 03

Bonded Performance

Falcon Spirit Stallion

Locked finish. Route-proof.

TX-D 03

Textured & Decorative

Nebula Orion Helix

Soft hand. Visible light.

SP-U 03

Spun & Utility

Vega Atlas Photon Neutron

Staple logic. Engineered weight.

High Tenacity Soft

UNBONDED STRENGTH, FLUID RUN

Titan

HIGH-TENACITY SOFT POLYESTER

“Strength that moves smoothly.”

Titan is a high tenacity (HT) continuous filament (CF) lubricated polyester thread having excellent breaking strength, elongation, durability, optimum stretch and low friction lubrication which reduces the effects of needle heat and abrasion; resulting in attractive and fine seams on applications like: mattress quilting, tape edging, soft luggage, leather footwear and leather goods.

PRIMARY USES

- Multi Needle Quilting
- Mattresses Tape Edging
- Laptop Bags, Duffle Bags
- Backpack Bags, Soft Luggage
- Air-Bags
- Seat Belts and Seat Covers
- Automotive Interiors
- Shoes and Sandals
- Outdoor Goods
- Sports Equipments
- Slings
- Leather goods: Belts, Wallets, etc
- Safety Harness

High Tenacity Soft

UNBONDED STRENGTH, FLUID RUN CONTINUED

Pulsar

NYLON 6 — FLEXIBLE STRENGTH

“Flexible strength. Clean control.”

Pulsar is engineered to provide excellent flexibility, elongation and reliable sewing performance across a wide range of demanding applications.

PRIMARY USES

- Multineedle Quilting
- Mattresses Tape Edging
- Laptop Bags, Duffle Bags
- Backpack Bags, Soft Luggage
- Air-Bags
- Seat Belts and Seat Covers
- Automotive Interiors
- Shoes and Sandals
- Outdoor Goods
- Sports Equipments
- Slings
- Leather goods: Belts, Wallets, etc
- Safety Harness
- Filtration
- Protective footwear

Quasar

NYLON 66 — HIGH-ENERGY

“High-energy performance at every stitch.”

Quasar is engineered for applications where strength, elongation, thermal resistance and sewing efficiency are critical. Its enhanced performance characteristics make it particularly suitable for demanding outdoor and industrial products.

PRIMARY USES

- Tents, Parachute
- Duffle Bags, Backpack Bags
- Hard & Soft Luggage
- Air-Bags
- Seat Belts and Seat Covers
- Automotive Interiors
- Shoes and Sandals
- Outdoor Goods
- Sports Equipments
- Slings
- Leather goods: Belts, Wallets, etc
- Safety Harness
- Filtration
- Protective footwear

Bonded Performance

LOCKED FINISH, ROUTE-PROOF

Falcon

BONDED HT POLYESTER

"Bonded for the toughest routes."

Falcon thread is recognized for its robustness and durability. This makes it ideal for various sectors, including the automotive industry, footwear production, leather goods, handbags, and specialized applications such as filtration products.

PRIMARY USES

- Tents, Parachute
- Mattresses Tape Edging
- Laptop Bags, Duffle Bags
- Hard & Soft Luggage
- Air-Bags
- Seat Belts and Seat Covers
- Automotive Interiors
- Shoes and Sandals
- Outdoor Goods
- Sports Equipments
- Slings
- Leather goods: Belts, Wallets, etc
- Safety Harness
- Filtration
- Protective footwear
- Furniture and Upholstery
- Military applications
- Geotextiles

Spirit

BONDED NYLON 6

"Held together for hard-working seams."

Spirit is a lubricated, high-performance & high-strength sewing thread engineered for applications requiring controlled stretch, smooth sewing performance, high abrasion resistance and dependable seam durability.

PRIMARY USES

- Tents, Parachute
- Mattresses Tape Edging
- Laptop Bags, Duffle Bags
- Hard & Soft Luggage
- Air-Bags
- Seat Belts and Seat Covers
- Automotive Interiors
- Shoes and Sandals
- Outdoor Goods
- Sports Equipments
- Slings
- Leather goods: Belts, Wallets, etc
- Safety Harness
- Filtration
- Protective footwear
- Furniture and Upholstery
- Military applications
- Geotextile

Stallion

BONDED NYLON 66

"Firm control under demanding motion."

Stallion is a lubricated, high temperature resistance, high-performance & high-strength sewing thread engineered for demanding sewing applications requiring strength, durability, controlled elongation and excellent abrasion resistance.

PRIMARY USES

- Tents, Parachute
- Mattresses Tape Edging
- Laptop Bags, Duffle Bags
- Hard & Soft Luggage
- Air-Bags
- Seat Belts and Seat Covers
- Automotive Interiors
- Shoes and Sandals
- Outdoor Goods
- Sports Equipments
- Slings
- Leather goods: Belts, Wallets, etc
- Safety Harness
- Filtration
- Protective footwear
- Furniture and Upholstery
- Military applications
- Geotextiles

Textured & Decorative

SOFT HAND, VISIBLE LIGHT

Nebula

TEXTURED POLYESTER

"A cloud-soft finish for next-to-skin seams."

Nebula is a textured sewing thread engineered to provide a soft hand feel, smooth surface and excellent seam coverage. Its textured filament construction makes it particularly suitable for looper applications in overlock, serging and cover-stitch operations, where softness and wearer comfort are essential.

PRIMARY USES

- For comfort in all next-to-skin garments
- Denim Wears
- Activewear
- Sportswear and Leisurewear
- Underwear and Lingerie
- Babywear
- Household Textiles
- Garments Overlocking
- Mattress Overlocking

Orion

TEXTURED NYLON 6

"Comfort with a richer, softer touch."

Orion is a textured sewing thread engineered to provide a soft hand feel, smooth surface and excellent seam coverage. Its textured filament construction makes it particularly suitable for looper applications in overlock, serging and cover-stitch operations, where softness and wearer comfort are essential.

PRIMARY USES

- For comfort in all next-to-skin garments
- Denim Wears
- Activewear
- Sportswear and Leisurewear
- Underwear and Lingerie
- Babywear
- Household Textiles
- Garments Overlocking
- Mattress Overlocking

Helix

TRILOBAL EMBROIDERY

"Light follows every turn."

HELIX is an embroidery thread developed to deliver exceptional durability, brilliant colour effects and a distinctive lustrous appearance. Its specialized trilobal construction enhances light reflection, creating a bright, vibrant and shimmering embroidery effect.

PRIMARY USES

- Sportswear
- Denim & Garments
- Underwear and Lingerie
- Workwear
- Home Textiles
- Home Interiors
- Ladies Wear
- Automotive
- Leather Goods
- Swimwear & Outdoor Items
- Logos
- Brand Designs

Spun & Utility

STAPLE LOGIC, ENGINEERED WEIGHT

Atlas

FINE SPUN — DETAIL

"Fine detail, cleanly defined."

ATLAS is a polyester staple spun sewing thread developed for applications where dependable seam quality, excellent colour retention and consistent sewing performance are essential.

PRIMARY USES

- Denim & Garments
- Knitwear
- Wovens
- Shirts and Blouses
- Jackets and Trousers
- Fashionable Apparels
- Dresses
- Workwear
- Economy Denim
- Underwear & Lingeries
- Quilting
- Bags and Luggage
- Umbrellas, Rain Coats
- Safety Equipments

Photon

COARSE SPUN — VISIBLE STRENGTH

"Built to carry visible strength."

PHOTON is a premium poly-poly core spun polyester sewing thread engineered for applications where high seam quality, colour retention and consistent sewing performance are essential.

PRIMARY USES

- Denim & Garments
- Knitwear
- Wovens
- Shirts and Blouses
- Jackets and Trousers
- Fashionable Apparels
- Dresses
- Workwear
- Economy Denim
- Underwear & Lingeries
- Quilting
- Bags and Luggage
- Umbrellas, Rain Coats
- Safety Equipments

Neutron

100% POLYPROPYLENE — LIGHTWEIGHT

"Purpose-built utility, kept light."

NEUTRON is a premium poly-cotton core spun polyester sewing thread engineered for applications where high seam quality, colour retention and consistent sewing performance and ready for dyeing products are essential.

PRIMARY USES

- Denim & Garments
- Knitwear
- Wovens
- Shirts and Blouses
- Jackets and Trousers
- Fashionable Apparels
- Dresses
- Workwear
- Economy Denim
- Underwear & Lingeries
- Quilting
- Bags and Luggage
